General | Process Guideline

We expect your DESADV notifications for each delivery.

Always refer to the respective order number in each DESADV message, if available.

The notification of free items and promotional materials is not supported.

What happens next?

Validation

In this phase, your test data will be checked by us for correct form according to the GS1 standard and REWE guidelines.

Testing Phase

After going live, your data quality will be tightly controlled for a period of **about 4 weeks** and then be further evaluated for another **about 4 weeks** taking into account the warehouse and market locations.

Please note that the onboarding process is completed only after this testing phase and sufficient quality of your data.
